WALL STREET.
SATURDAY, SEPT. 19—9 P. M.
The point of largest interest in Wall street on Saturday, during a busy season which usually sets in shortly after the 1st of September, when the crops begin their active movement to the seaboard, is THE MONEY MARKET.
So far as to-day's exhibit in this connection is concerned there is no change to report in current rates, which continue easy at 2 to 3 per cent for call, and 5 to 7 1/2 per cent for prime short and long date mercantile paper. The prime interest, however, centres in THE BANK STATEMENT.
As reflecting in the currency movement hence the extent of the crop movement. In this respect the statement this week is not an encouraging one, unless upon the assumption that in the dearth of activity in other directions giving credit to money in former years, that this year the different strain centres West find themselves sufficiently in funds to postpone their usual drafts upon the Eastern banks. This may account for the absence of any present drain upon our city banks, and the slight loss of surplus reserve suffered during the week. To-day's statement shows a decrease of only \$17,675 in the surplus reserve, while the excess is still over twenty-five millions. Subjoined is a comparison of the averages this week and last—

THE REDEMPTION AGENCY
at Washington has given notice that in consequence of the expiration of the five per cent fund and the failure of the national bank to make a prompt and general response to the request for an additional deposit of five per cent of their circulation, it has become necessary to stop the redemption of national bank notes for a short time.
"It is hoped the redemption will be resumed within two or three weeks." The explanation given for this inability of the Treasury Department to carry out the provisions of the Currency bill of the last session of Congress is the want of sufficient expert clerical force to expedite the work. With the present plethora of money at the bank centres the delay in redemption is not likely to be material, but in an active money market it might work serious embarrassment. The present national bank circulation outstanding is \$250,383,000.

CONDITION OF THE TREASURY.
The bonds held at Washington to secure national bank circulation amount to \$389,000,000. To secure public deposits, \$140,000,000. Internal revenue receipts to-day were \$370,000. Total for month, to date, \$5,575,000. Treasury shipments for week ending to-day were—Legal tenders, \$1,380,000; fractional currency, \$70,000; Treasury balances—Currency, \$10,260; coin, \$78,000, less coin certificates, \$225,000, gold.

was extremely dull to-day and remained steady at 109 1/2, the only price of the day. In the loan market 1/4 to 1 per cent was paid to have gold carried with loans also made that. The Assistant Treasurer paid out to-day \$50,000 in redemption of five-twenty bonds and \$27,000 on interest account, making a total disbursement on the latter account for the week \$221,000. The customs receipts to-day were \$223,000, and for the week \$2,440,000.

FOREIGN EXCHANGE
was quiet, selling at 4 3/4 to 4 5/8 for 60 days sterling, and 4 1/2 to 4 3/4 for 90 days. The specie shipments to-day were \$212,150, gold and silver bars. The Bank of England gained on London \$11,000 sterling. The rate for money on the London Stock Exchange was 2 per cent on government securities.
